

Use 2 hands to operate while putting all of your strength into cutting process

Stronggrip-J™

- Press down with one hand over the top of knife and grip the handle with the other hand. This will give more control and force when cutting into materials.
- Convenient size to use with both hands and to fit tool pouch.
- 1.0mm thick tempered stainless steel blade sleeve. Outstanding blade durability.
- The new blade sleeve feature which supports the edge of blade prevents blade breakage.

Art.Nr.						EAN
DC690-Y1-10	22mm	10	ENDURA-BLADE™	6	24	4975364 112507

- Strong, stiff 0.65 mm thick blade
- Sturdy 22 mm wide blade
- Snap-off line pitch is 1.0mm

For best usage: Caulking materials, insulation materials, drywall and plywood.

HOTNEWS

VOL. 19

Fully tempered blade sleeve with multi-function fin end.
Can be used for opening, fastening and prying.

DFC670 / DFC671

Extended blade sleeve supports the edge of blade and it prevents blade breakage.

Grip form

Newly-designed 2 colored grip to fit in one's hands

In-handle blade storage

Up to 2 spare blades can be loaded inside the grip

New high precision blade-sliding feature.

Slider movements can be felt in hand when moving back and forward. Compared to existing slider feature, this tool gives more precise feeling from the grip to hand.

1.0mm thick tempered blade sleeve with fin end

The hardness of tempered blade sleeve is more than double of existing stainless steel blade sleeve. The tip of blade sleeve is resistant so it won't get damaged easily from heavy use and fall.

The fin end is designed to be useful when opening, fastening and prying.
